DETAILED ACTION

Response to Amendment

The amendment filed on 08/05/2010 has been fully considered by the examiner. The status of claim 6 is improperly shown as canceled.

The power of attorney filed on September 10, 2010 is defective since it is missing the entire interest.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 29-30 and 32-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claim 29, the term "substantially" seeks to introduce new matter.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3, 6-15, 17-28, 29-30, 32-42 and 59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the recitation "facing in said proximal direction" renders the claim vague and indefinite since it is unclear what the proximal direction is. It is suggested

Art Unit: 3775

that the proximal direction be defined with respect to the proximal and distal ends of the chisel.

In claim 29, the recitation "a tangent to the blade cutting edges" renders the claim indefinite since it is unclear whether there is a single line that is tangent to each blade cutting edge or two separate tangents. Claim language further in the claim appears to indicate two separate tangents.

In claim 59, it is suggested that "proximal direction" be defined with respect to the proximal and distal ends of the chisel.

Appropriate correction is required.

Response to Arguments

Applicant's arguments have been fully considered. The rejection of claim 1 under 35 USC 112 second paragraph made in the previous office action has not been overcome for the reasons stated in this office action.

Allowable Subject Matter

Claims 1-3, 6-15, 17-30, 32-42 and 59 would be allowable if the rejection under 35 USC 112 second paragraph made in this action is overcome.

Claims 60 and 61 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3775

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
